

U.S.-Japan Trade Agreement

Nuts

Overview: In 2025, the United States exported \$449 million of nuts to Japan, making Japan the #11 overseas market for U.S. nuts. Almonds and walnuts are Japan’s top nut imports from the United States. U.S. nut imports accounted for over 51 percent of Japan’s total nut and nut product imports in 2025. The years below correspond to Japan’s fiscal year beginning April 1.

Market Considerations: Japan relies on imports for most of its nut consumption. Almonds and walnuts are supplied almost exclusively by the United States. Salted mixed nuts remain a popular snack item in the retail sector while unsalted nuts are gaining in popularity due to perceived health benefits. The United States is the second largest supplier of peanuts to Japan, after China. Under this agreement, U.S shelled peanuts gained an immediate tariff advantage over Chinese peanuts (HS 1202.42.091).
